## Toy assembly

---

1. Attach the head to the body (remember to fill the neck tightly with fiberfill. If you don't do this, your head will bob. You can also use 8cm wooden sushi chopsticks to strengthen your neck)
2. Sew the arms symmetrically to the body just under the neck.
3. To shape the face, take a long, strong thread in the same color as the head. Then, starting at the neck, pull the thread to the eye area (in my case, this is the inner corner of the eyes). Insert the needle about 2sc below and return to the neck area. Do the same with the other eye. Now pull the thread very tightly and tie it. You can repeat these steps if you like. Hide the thread inside the head.

TIP: I encourage you to experiment with face shaping – each time you will create a doll with a different character. It all depends on your imagination, the tension of the thread, the size of the eyes, or using a different method for embroidering the eyebrows, eyelashes, nose, and mouth. You'll see how much fun it will be.

4. Embroider the nose (doll) and lips (doll and the mushroom).
5. Embroider the lashes and eyebrows – both doll and the mushroom.
6. Attach the hair to the head using pins and sew it. Make the same with the hat.
7. Dress the doll in all the clothes. The shoes may be a little tight, but this will help them fit nicely on the foot.
